MEMORANDUM

To: Victorian Membership Candidates
From: Chief Examiner, Peter Bennett
Subject: Victorian Lockdown - Examination Plans

We understand the lockdown announcement in your state will have raised concerns over ANZCVS Membership examinations. To allow 2021 membership examinations to proceed in Victoria, the College is delaying your written and practical examinations by one week.

It is our intention that all other information, location and time remain the same. In the event there are additional changes, we will provide notification as quickly as possible.

We hope the change of date provides the flexibility you need to proceed. However, we understand that there may be competing priorities during this time, and if your circumstances preclude you from proceeding, you have the additional options of deferring until 2022 or withdrawing.

As our plans are dependent on the Victorian lockdown ending in seven days, any extension to this will require reassessment and further notifications to candidates.

The College is updating a COVID-19 page on the website, which includes all circulated information and a list of frequently asked questions.
