INTRODUCTION

This General Information Booklet should be read in conjunction with the College Constitution.

1. AIMS, GOALS AND OBJECTIVES OF THE COLLEGE

A. AIMS

"The College has a definite brief to encourage veterinarians in practice, in industry, in government employment, and in other fields to seek to improve themselves and to provide additional post-graduate qualification as a goal."

The College has amongst its aims -

- (a) To advance the study of veterinary science and to bring together members of the veterinary profession for their common benefit.
- (b) To hold, conduct or arrange examinations of professional proficiency for the purpose of determining qualification for membership of the College and fellowship of the College.

B. GOALS

Professional Development

- To conduct a membership examination system that is recognised in Australia and New Zealand as indicating that a member of the College has advanced skills and knowledge in a particular area of veterinary science.
- To conduct a fellowship examination system that is recognised internationally as certifying the fellows as experts and/or specialists in a particular area of veterinary science.
- To provide members with services and forums that encourage and facilitate ongoing education and professional development.
- To support the establishment and functions of Chapters of members with common interests to further their professional development.

Management

- To professionally manage the affairs of the College at reasonable cost to members.
- To ensure accountability for collection and expenditure of members' funds.
- To hold regular, minuted meetings of the College, the Council and the Board of Examiners.
- To provide media for publication and promotion of College and Chapter policies.

C. OBJECTIVES

Examinations

- To work towards international recognition of the Fellowship qualification.

Members Services

- To encourage the new younger demographic of membership to become involved in the running of the College, as office bearers.
- To introduce more multimedia-based information.
- To consider alternatives in content of the awards dinner and other college-based activities.
- To actively pursue ways to communicate and integrate with other organisations (such as AVA, NZVA, AVBC, Universities, Industry, CVE, Government, Overseas Colleges and Media) looking for win/win situations where there could otherwise be potential competition/ threats to the College.

Chapters

- To strengthen Chapters to ensure their continued support of College objectives.
- To emphasise the role of the Chapters in establishing and running Science Week programs.
- To encourage more interaction between Chapters, especially at College Science Week.
- To facilitate communication between Chapters and Council.
- To ensure Chapter Office bearers are aware of the importance of their role.

Management

- To ensure that examinations are appropriately organised and managed.
- To review College guidelines on privacy.
- To promote the roles of Council/Chapter Office Bearers and the BoE so that they are better understood and appreciated by new members.

2. ADMINISTRATION OF THE COLLEGE

The College is a Company limited by guarantee. Copies of the College Constitution are available on the website [here](#).

Council

The College is administered by an elected Council comprising of six members, two being elected each year by Members of the College for a three-year term. Councillors are obliged to retire after three full terms.

Each year Council elects the College office bearers, namely the President, Honorary Secretary and Treasurer. Council shall appoint the Chief Examiner who, if not an elected Councillor, is automatically a member of Council. Council may appoint additional officers such as an Honorary Assistant Secretary (New Zealand), Honorary Public Relations Officer, Returning Officer, Honorary College Historian and Chair of the Awards Committee.

Council has appointed a Chief Executive Officer to assist the elected office bearers in the administration of the College. The Chief Executive Officer is assisted by the Administration Manager. Council meets 5-6 times per year including a joint meeting of the old and new Councils at the time of the Annual General Meeting.

Board of Examiners

Council appoints the Board of Examiners at its first meeting each year. The Chief Examiner chairs the Board which meets at least three times each year. They are assisted by two Assistant Chief Examiners who are responsible for either Examinations or Training and Credentials.

The Chief Examiner shall annually recommend to Council, Fellows or Members for appointment to the Board of Examiners. The membership of the Board is listed in the Fellowship Candidate Handbook, the Membership Candidate Handbook and on the [website](#).

Annual Fees

The costs of administration of the College are met by the Members of the College, an annual fee being set by the Members in general meeting. The present policy of Council is that the cost of College examinations should as far as possible be met by revenue from the examination fees which are also set by Members in general meeting.

Appeals Procedure

Council has adopted a document (available in our [Policy Library](#)) which outlines the procedure to be followed by appellants and by officers and Council when an appeal is lodged against a decision by an officer or Council.

3. MEMBERSHIP

Veterinarians wishing to undertake membership examinations should consult the College Membership Candidate Handbook (available under [Publications](#)) which provides advice to membership candidates. It outlines the eligibility criteria and describes in detail the examination process. It also lists the subjects in which the examination may be taken. Not all examination subjects may be available every year. The Membership Candidate Handbook is available from the College [website](#).

Associate Membership

Associate Members will be restricted to veterinarians who are eligible to register to practice as a specialist in Australia or New Zealand by virtue of qualifications obtained overseas.

Life Membership/Fellowship

There is provision in the Constitution for Council to grant Life Membership to retired members. Members/Fellows are eligible for Life Membership/Fellowship if they are no longer engaged in veterinary activity, AND have EITHER:

- a. Reached the age of 60 years OR
- b. Been a College member for 30 continuous years or more

4. FELLOWSHIP

Members wishing to undertake the fellowship examinations should consult the College Fellowship Candidate Handbook which provides advice to fellowship candidates. This details both the eligibility criteria and the examination process. It also lists the subjects in which the examination may be taken. The Fellowship Candidate Handbook is available from the College [website](#).

Non-members who believe they meet the eligibility criteria for fellowship may apply to the Chief Examiner to proceed directly to the fellowship examination. Any such application must be approved by the College Council.

Honorary Fellows

The Constitution provides for Council to elect persons who have rendered exceptional service to veterinary science or veterinarians who have been actively involved in the affairs of the College as Honorary Fellows of the College. Members of the College may nominate candidates for such election, the nominations to include a curriculum vitae and supporting statements. The Honorary Fellowship Policy is available from the College [website](#).

5. ADVISORY COMMITTEE ON REGISTRATION OF VETERINARY SPECIALISTS (ACRVS)

In order to achieve uniform standards for the registration of veterinary specialists and to establish relationships between Fellowship and specialist registration, the College established this committee with representation by the College, the Veterinary Associations, the Veterinary Boards and the University Veterinary Schools. The ACRVS is now a standing committee of the Australasian Veterinary Boards Council Inc.

Veterinarians wishing to register as a specialist should apply to the appropriate Veterinary Board. Applications are referred to the ACRVS for assessment. The various Boards have adopted the ACRVS criteria for specialist registration and these are set out in the Fellowship Candidate Handbook available from the College [website](#) or on request from the College office.

6. CHAPTERS

The College is made up of Chapters of expertise which are as autonomous as possible in the conduct of their own affairs, within the framework of the College administration. Chapters may conduct courses of instruction for veterinarians who are candidates for College examinations. They are also encouraged to conduct continuing education events for members of the Chapter, members of the College generally and non-member veterinarians.

Chapter Membership is available to all members who have gained entry to the College by examination in the Chapter's field of expertise, or who have been invited to join due to an interest in the field of expertise.

Chapters provide a consulting service to the Council, Chief Examiner and Board of Examiners on course guidelines, training criteria and examination issues.

List of Chapters can be found below:

ANAESTHESIA AND ANALGESIA CHAPTER

The Veterinary Anaesthesia and Analgesia Chapter of the ANZCVS exists to promote excellence in veterinary anaesthesia and analgesia across all species of animals in veterinary clinical practice, teaching and research environments.

Specifically, we aim to:

- advance the science and art of veterinary anaesthesia and analgesia
- further the professional education and training, and facilitate the exchange of knowledge, of veterinarians with a focus on veterinary anaesthesia and analgesia.
- encourage exchange of knowledge and collaborative work with other scientists working in the field of veterinary anaesthesia and analgesia
- encourage research and publication in veterinary anaesthesia and analgesia

AQUATIC ANIMAL HEALTH CHAPTER

The Chapter of Aquatic Animal Health is a very diverse interactive group of veterinarians as this Chapter covers all aquatic animals (apart from reptiles, amphibians, birds and mammals), with particular emphasis on those species which are kept for aquaculture or otherwise commercially exploited, including but not limited to teleost fish, bivalve molluscs, marine shrimps (prawns), freshwater crayfish and abalone. Disciplines include medicine and management, pathobiology and epidemiology of aquatic animal diseases. Members of this Chapter aim to exchange knowledge and promote excellence in the diagnosis, treatment and prevention of diseases of aquatic animals, to advance the science and art of veterinary science as it relates to aquatic animals, and to further the professional education and training of veterinarians with a focus on aquatic animal health. The Chapter also aims to encourage research in aquatic animal health, and to encourage exchange of knowledge with and collaborative work with other scientists working in the field of aquatic animal health.

ANIMAL REPRODUCTION CHAPTER

The Chapter is a special interest group that aims to bring together veterinary graduates who have an active interest in reproduction across all species. The Chapter is relatively new having formed in 1998. The membership level examination expects knowledge of reproductive processes in all domestic species. Fellowship level examination is available within an individual species. An annual meeting to coincide with the College Science week is planned each year. Presentation of clinical case material, current research or topical issues at the meeting is encouraged. The meeting provides an opportunity to present and actively discuss all aspects of comparative reproduction. Members of the Chapter usually have an individual species that is of particular interest to them, but discussing reproductive processes across a range of species in a more biological context is very useful in an attempt to understand the many factors that may influence reproduction. Membership of the Chapter is open to all members of the College that have a fascination with reproduction.

ANIMAL WELFARE CHAPTER

The Animal Welfare Chapter has been established to provide a forum for the training of veterinarians to a detailed knowledge and above average competence in animal welfare in all species. This capability will be drawn from a broad base of knowledge across all body systems. Course content includes, The Ethics of Animal Use, Physiological and Psychological Aspects of Adverse States, Animal Environments, The Veterinary Profession's Role in Animal Welfare, Veterinary Aspects of Animal Welfare, Specific Welfare Issues, Legislation and Animal Welfare and Human - Animal Relationships. Membership in this subject equips veterinarians to understand the scientific basis for optimum animal welfare and to be able to reason and debate coherently the legal and ethical aspects of animal welfare.

AVIAN HEALTH CHAPTER

The objects of the Chapter are:

- To provide the means of entry to the College for those specialising in Avian Health.
- To provide a means of accreditation for avian health veterinarians
- To advance the science and art of avian health
- To facilitate the exchange of knowledge between avian health veterinarians
- To encourage exchange of knowledge with and collaborative work with other biological scientists in the field of avian health
- To encourage publication in the sphere of avian health
- To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

CATTLE CHAPTER

The Cattle Chapter aims to foster the interests and aspirations of veterinarians whose careers embrace disciplines concerned with dairy and beef cattle medicine and management.

The Chapter assists candidates for Membership examination through the mentor system and may also, in the future, provide short workshops to assist candidates in their preparation for Membership examinations.

The Chapter is managed by an Executive whose activities include organisation of scientific meetings, circulation of newsletters and nominations of examiners for membership and fellowship examinations.

The Cattle Chapter has a strong educational role and actively encourages veterinarians to sit the Membership and Fellowship examinations.

EMERGENCY AND CRITICAL CARE CHAPTER

The Emergency and Critical Care Chapter will promote excellence in the treatment of sick animals in the Emergent Period and for the duration, during which a disease remains life threatening.

The objectives of the Chapter shall be:

- To advance the science and art of veterinary science as it relates specifically to Emergency and Critical Care and in particular to encourage and aid recruitment to the discipline, College and the Chapter.
- To further the professional education and training of veterinarians with a focus on Emergency and Critical Care. Providing mentorship and support as required
- To encourage research in Emergency and Critical Care
- To facilitate the exchange of knowledge between veterinarians with a focus on Emergency and Critical Care both locally and overseas.
- To encourage exchange of knowledge with and collaborative work with other scientists working in the field of Emergency and Critical Care
- To encourage publications in the sphere of Emergency and Critical Care
- To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

EPIDEMIOLOGY CHAPTER

The objectives of the Chapter are to:

- Provide a means of entry to the College for those with a particular interest in veterinary epidemiology;
- Provide a means of accreditation of veterinary epidemiologists;
- Encourage research in, and application of, veterinary epidemiology;
- Facilitate the exchange of knowledge between veterinary epidemiologists;
- Further the professional education and training of veterinary epidemiologists; and to
- Encourage publications in the sphere of veterinary epidemiology.

The Chapter achieves these objectives by:

- Assisting candidates for Membership examination through the mentor system;
- Providing examiners for Membership and Fellowship exams;
- Conducting workshops as a means of continuing education for its members;
- Publishing newsletters;
- Awarding a medal to a final year veterinary student at each veterinary school in Australia and New Zealand for excellence in veterinary epidemiology; and
- Organising an annual conference on veterinary epidemiology.

EQUINE CHAPTER

Under Article 4 of the Chapter Constitutions the objectives are listed as follows:

- To advance the science and art of equine practice
- To further the professional education and training of veterinarians in all aspects of equine diseases
- To facilitate the exchange of knowledge between equine veterinarians
- To encourage original research and publication on all matters of equine diseases
- To establish a set of standards and guidelines for post-graduate training to assist members in attaining qualification consistent with current international standards of the profession.
- To encourage exchange of knowledge with and collaborative work with other disciplines and other Chapters, and with other medical biological scientists.
- To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

Membership of the Chapter is open to all Members and Fellows of the College with interest in Equine Medicine, Surgery, Reproduction, Anaesthesia, Radiology etc.

FELINE CHAPTER

The objects of the Chapter:

- To advance the science and art of veterinary science as it relates specifically to Feline Medicine.
- To further the professional education and training of veterinarians with a focus on Feline Medicine.
- To encourage research in disease of the Feline.
- To facilitate the exchange of knowledge between veterinarians with a focus on Feline Medicine.
- To encourage exchange of knowledge with and collaborative work with other scientists working in the field of Feline Medicine.
- To encourage publications in the sphere of Feline Medicine.
- To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

MEDICINE AND MANAGEMENT OF LABORATORY ANIMALS CHAPTER

The Medicine and Management of Laboratory Animals Chapter will promote excellence in the medicine, management, care, wellbeing and use in research and teaching of Laboratory Animals

The objects of the Chapter:

- To advance the science and art of veterinary science as it relates specifically to Laboratory Animals and in particular to encourage and aid recruitment to the discipline, College and the Chapter.
- To further the professional education and training of veterinarians with a focus on Laboratory Animals
- To facilitate the exchange of knowledge between veterinarians with a focus on Laboratory Animals used in the research, teaching, testing and production.
- To promote exchange of knowledge with and collaborative work with other scientists working in the field of Laboratory Animal Medicine and Management.
- To encourage research publications in the sphere of medicine, management, production, care and use of Laboratory Animals.

PATHOBIOLOGY CHAPTER

The Chapter of Pathobiology aims to foster the interests and aspirations of individuals whose careers are in a group of veterinary disciplines concerned with the causes, pathogenesis and diagnosis of disease. As such, the Chapter embraces the veterinary disciplines of pathology, clinical pathology, parasitology, microbiology (including virology), and immunology.

Membership and Fellowship of the Chapter is achieved by undertaking a training programme and successfully completing examinations which accredit the member or fellow with substantial accomplishments in one of the above areas. A membership would be based on a sound grasp of the tenets of general pathology. A Fellow of the Chapter would be eligible to apply for specialist registration. The requirements for a fellowship training programme are currently under review by the Fellowship Training and Credentials Committee of the College but would include documentation of case reports, scholarly publications and a diary of supervision.

In addition, the Chapter promotes contact and the dissemination of information between members and maintains contact with the other organisations.

PIG HEALTH and PRODUCTION CHAPTER

The objects of the Chapter shall be:-

- To advance the science and art of veterinary science as it relates specifically to pig health and production and in particular to encourage and aid recruitment to the discipline, College and the Chapter;
- To further the professional education and training of veterinarians with a focus on pig health and production;
- To encourage research in pig health and production;
- To facilitate the exchange of knowledge between veterinarians with a focus on pig health and production;
- To encourage exchange of knowledge with and collaborative work with other scientists working in the field of pig health and production;
- To encourage publications in the sphere of pig health and production

RADIOLOGY CHAPTER

The Chapter of Radiology is a special interest group whose purpose is to foster an interest in diagnostic imaging procedures in veterinary practice. Membership level examinations are designed to encourage interested veterinary practitioners to improve the base level of their radiographic skills, theoretical knowledge and film reading ability. After successful completion of the membership examination they may be eligible to prepare for fellowship examination. A fellow in radiology is eligible to apply for Board registration to practice as a specialist veterinary radiologist. An executive committee meets regularly to oversee the activities of the Chapter.

SMALL ANIMAL MEDICINE CHAPTER

The Chapter aims to foster the interest of veterinarians in the understanding of small animal diseases. This aim is met by working within the College to provide an examination process that allows recognition of further study in the field of small animal medicine. Members should be familiar with pathophysiological mechanisms, aetiology, diagnosis, and case management of small animal disease.

The Chapter:

- Actively seeks mentors for candidates and supports the formation of mentor groups to provide support and guidance for prospective members.
- Prepares examinations and organises examiners for Membership candidates.
- Provides a forum for presentation of material to peers at regular scientific meetings.
- Organises VIN (Veterinary Information Network) rounds, which are internet-based chat sessions focussing on the latest in diagnostics and treatment of canine and feline problems.
- Provides support for members in preparation of material for publication or presentation.

In addition the Chapter is responsible for the organisation of Fellowship examinations. Success at these rigorous examinations allows eligibility for specialist registration.

Intending candidates may be examined in either canine medicine or small animal medicine to gain entry to the Chapter.

SMALL RUMINANT CHAPTER

The Small Ruminant will promote excellence in the medicine, surgery and production of sheep or goats or deer and has the following objectives:

- To advance the science and art of veterinary science as it relates specifically to Small Ruminants and in particular to encourage and aid recruitment to the discipline, College and the Chapter
- To further the professional education and training of veterinarians with a focus on Small Ruminants
- To encourage research in Small Ruminants
- To facilitate the exchange of knowledge between veterinarians with a focus on Small Ruminants
- To encourage exchange of knowledge with and collaborative work with other scientists working in the field of Small Ruminants
- To encourage publications in the sphere of Small Ruminants

SURGERY CHAPTER

The objectives of the Chapter are:

- To advance the science and art of veterinary surgery.
- To further the professional education and training of veterinary surgeons.
- To facilitate the exchange of knowledge between veterinary surgeons.
- To encourage original research and publication in veterinary surgery.
- To encourage the establishment of training programmes in surgery, e.g. residency, internships, etc.
- To establish guidelines for surgical training towards specialist qualifications.
- To encourage exchange of knowledge, and collaborative work, with other College chapters, human surgeons and other medical and biological scientists.
- These aims are met by working within the College to provide:
- Support and guidance for prospective members by the mentor system.
- Examinations and examiners for Membership and Fellowship candidates
- Newsletters to disseminate relevant information to members
- Support for members in preparation of material for publication or presentation.

- A forum for presentation of material to peers at regular scientific meetings

UNUSUAL PETS CHAPTER

The Unusual Pets Chapter will promote excellence in medicine and surgery of unusual pets, with emphasis on helping candidates prepare for the membership in unusual pet medicine and surgery. The chapter aims to eventually work towards providing a fellowship level qualification.

The objectives of the Chapter shall be:

- Provides a means of accreditation for veterinarians with a professional interest in unusual pet medicine and surgery
- Provides a forum for presentation of material to peers at regular scientific meetings
- Facilitates the exchange of knowledge between veterinarians interested in unusual pet medicine and surgery
- Encourages exchange of knowledge with and collaborative work with other groups involved in unusual pet health and welfare
- Encourages further investigation and scientific publication in the area of unusual pet medicine and surgery
- To increase the profile of unusual pet medicine and surgery as part of veterinary medicine

VETERINARY BEHAVIOUR CHAPTER

Mission:

To advance the understanding and application of animal behaviour principles. This is both a science and an art. The Animal Behaviour Chapter aims to foster the interest of veterinarians in the understanding of animal behaviour. This aim is met by working within the College to provide an examination process that allows recognition of further study in the field of animal behaviour.

The Chapter:

- Actively seeks mentors for candidates and supports the formation of mentor groups to provide support and guidance for prospective members.
- Prepares examinations and organises examiners for Membership candidates.
- Provides a means of accreditation for veterinarians interested in animal behaviour.
- Provides a means by which veterinarians can show that they have the skills, knowledge and attitude to be deemed competent in this field.
- Produces regular newsletters to disseminate relevant information to members and other interested parties.
- Encourages and provides support for members in preparation of material for publication or presentation.
- Provides a forum for presentation of material to peers at regular scientific meetings.
- Facilitates the exchange of knowledge between veterinarians interested in animal behaviour and animal welfare.
- Provides an advice service to media, dog trainers, veterinarians, veterinary nurses, universities and other interested groups.
- Encourages exchange of knowledge with and collaborative work with other groups involved in animal behaviour and animal welfare.

- Encourages further investigation in the area of animal behaviour using scientific research methods to further knowledge in this field.
- To increase the profile of animal behaviour as part of veterinary medicine.
- Aims to acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

In addition the Chapter is responsible for the organisation of Fellowship examinations. Success at these rigorous examinations allows eligibility for specialist registration.

VETERINARY DENTISTRY CHAPTER

The aims of this chapter are to:

- Encourage scientific investigation and research in the field of Veterinary Dentistry, and a contribution to published professional literature.
- To encourage individuals to undertake examination at both membership and fellowship levels in Veterinary Dentistry via continuing postgraduate education and self-assessment; and the utilisation of training programs provided by the chapter.
- To provide continual improvement in practice standards and knowledge of Veterinary Dentistry. These objectives are to be attained in part by offering continuing education, comprising the most recent advances in Veterinary Dentistry, including the aetiology, diagnosis and treatment of oral diseases.
- To work closely with the Australian Veterinary Dental Society, other chapters of the Australian and New Zealand College and the Australian and New Zealand Veterinary Associations so as to further our knowledge in the field of Veterinary Dentistry.
- To encourage the veterinary teaching institutions to develop appropriate, professional teaching programs in order to produce graduates with a higher standard of competency and training in this field.
- Lastly, to endow its members with a sense of camaraderie, purpose and pride.

VETERINARY DERMATOLOGY CHAPTER

The aims of the Chapter are to:

- Advance the science and art of veterinary science as it relates specifically to Veterinary Dermatology and in particular to encourage and aid recruitment to the College and the Chapter.
- Provide continual improvement in practice standards and knowledge of Veterinary Dermatology and to further the professional education and training of veterinarians with a focus on dermatology.
- Encourage scientific investigation and research in the field of Veterinary Dermatology, and a contribution to published professional literature.
- Encourage individuals to undertake examination at the Fellowship levels in Veterinary Dermatology
- Facilitate the exchange of knowledge between veterinarians with a focus on dermatology.
- Encourage the veterinary teaching institutions to develop appropriate, professional teaching programs in order to produce graduates with a higher standard of competency and training in this field.
- Encourage exchange of knowledge with and collaborative work with other scientists working in the field of dermatology.
- Endow its members with a sense of camaraderie and purpose.

VETERINARY ONCOLOGY CHAPTER

The Chapter aims to foster the professional interest, and high-level education and training of veterinarians in Veterinary Oncology. These aims are met by working within the College:

- To provide a training and examination process that allows recognition of further study in the field of companion animal oncology.
- To encourage cross-disciplinary exchange of knowledge and collaborative work with other College chapters, and clinical or basic biomedical scientists.

The Chapter:

- Helps support and guide prospective Fellowship candidates by means of a mentoring system
- Prepares examinations and organises examiners for rigorous Fellowship examinations.
- Provides support for members in preparation of material for publication or presentation
- Provides a forum for presentation of material to peers at regular scientific meetings
- Provides an email list to members for networking and professional support

Success at the Fellowship examinations allows eligibility for specialist registration.

VETERINARY OPHTHALMOLOGY CHAPTER

The Chapter comprises a group of veterinarians unified in an aim of solving and improving the treatment of eye problems in animals. It provides a forum for discussion, debate and furthering the understanding of eye diseases through regular meetings.

The Chapter is a voice by which information can be disseminated to interested chapters, veterinarians and non-veterinarians. The Chapter would seek to provide expertise through its fellows in assisting in the training and examination of fellowship candidates.

VETERINARY PHARMACOLOGY CHAPTER

The objectives of the Chapter are:

- The advancement of the study and understanding of veterinary pharmacology so that the discipline can be applied more effectively for the welfare of animals and man. “Veterinary Pharmacology” embraces chemotherapy, product research and development, pharmacokinetics and pharmacodynamics, drug legislation, clinical pharmacology, toxicology and applied immunology.
- The provision of advice on veterinary pharmacology to the College, other organisations and individual veterinarians and to act as a conduit for the exchange of knowledge between works in the field.
- The support of continuing education and post-graduate training in veterinary pharmacology.
- The encouragement and assistance of prospective members in their preparation for examination by the College.

The Chapter's activities include organising Scientific Meetings, encouraging publication of veterinary pharmacology articles, and conducting the Veterinary Pharmacology Study course for examination preparation by membership candidates.

VETERINARY PRACTICE SMALL ANIMAL CHAPTER

The Chapter allows Veterinarians a pathway to attain Membership of the College in the extensive and challenging field of Small Animal Practice. The Chapter encourages Veterinarians with a broad interest in the profession to consolidate their knowledge and improve the science and art of veterinary science as it specifically relates to Veterinary Practice for canine and feline patients.

The newly established Chapter:

- Actively promotes and supports Mentorship for Membership candidates.
- Provides a forum for the presentation of case material, current research and topical issues with a Science Week programme drawing from a wide range of different veterinary subjects.
- Allows for exchange of ideas and knowledge between Members and the wider veterinary community.
- Provides camaraderie and a support network for Veterinarians in General Practice.
- Promotes pride and excellence in our Profession in general and specifically for Veterinarians in General Practice.
- Promotes and supports General Practice based research, publications and dissemination of this knowledge.

At this time the Chapter only conducts Membership examinations.

All College Members and Fellows are welcome to join the Chapter.

VETERINARY PUBLIC HEALTH CHAPTER

Veterinary Public Health (VPH) is that discipline of veterinary science dedicated to improving the physical, mental and social well-being of humans.

VPH draws upon the following areas of knowledge: diagnosis, surveillance, epidemiology, control, prevention and elimination of zoonoses; protection of food (including meat and milk) for human consumption; food and meat science; environmental protection; animal welfare; and the social and behavioural aspects of inter-human and human-animal.

VETERINARY SPORTS MEDICINE AND REHABILITATION CHAPTER

The Veterinary Sports Medicine and Rehabilitation Chapter aims to foster interest amongst veterinarians and promote excellence in the science and art of veterinary science as it relates specifically to Veterinary Sports Medicine and Rehabilitation for both canine and equine patients. This goal will be met by working within the College to provide an examination process that allows recognition of further study in this field.

The objectives of our Chapter are:

- a) To further the professional education and training of veterinarians with a focus on Veterinary Sports Medicine and Rehabilitation; by providing continuing education programs in Veterinary Sports Medicine and Rehabilitation, and by developing and overseeing the training, mentorship, examination and certification of veterinarians as qualified Australian Specialists in either canine or equine Veterinary Sports Medicine and Rehabilitation.
- b) To encourage research in Veterinary Sports Medicine and Rehabilitation;
- c) To facilitate the exchange of knowledge between veterinarians with a focus on Veterinary Sports Medicine and Rehabilitation by providing a forum for discussion, regular conference streams, and disseminating relevant information regularly in a newsletter format;
- d) To encourage exchange of knowledge with and collaborative work with other scientists working both within the field of Veterinary Sports Medicine and Rehabilitation and other related fields;
- e) To encourage publications in the sphere of Veterinary Sports Medicine and Rehabilitation and dissemination of this information;
- f) To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

ZOO AND WILDLIFE MEDICINE CHAPTER

The Zoo and Wildlife Medicine Chapter aims to advance the science and art of zoo and wildlife medicine, promoting excellence in the diagnosis, management and prevention of diseases of free-ranging and captive zoo and wildlife species.

We encourage collaborative exchange of expertise across disciplines, both within and beyond the veterinary profession; the College's annual Science Week conference is an invaluable vehicle by which to advance such an aim. Membership level examinations in Medicine of Australasian Wildlife and Medicine of Zoo Animals are offered biennially.

These examinations provide a formal mechanism for veterinarians employed in, undertaking post-graduate training in, or otherwise interested in the field of zoological medicine to improve their knowledge and obtain formal qualification recognising their skillset. Chapter activities are overseen by an Executive Committee and the Chapter Examinations Committee.

NEW ZEALAND NETWORK

The New Zealand Network was established to enhance engagement of New Zealand members of the College, with the College (including chapters) and with each other. The Network arranges functions and meetings in both the North and South Islands, aimed at professional development, social contact and, when necessary, representation on behalf of NZ-domiciled members.

The Network provides opportunities for networking and interactions between members of all disciplines recognised by the College, within New Zealand.

7. SCIENCE WEEK

The first object of the College "to advance the study of veterinary science and to bring together members of the veterinary profession for their common benefit" challenges the College to provide on-going continuing education. The Council, with the co-operation of the Chapters has established an annual scientific meeting: Science Week.

The scientific meeting aims to provide up to date information and technology to participants in the specialist disciplines and practice areas covered by the College and its Chapters.

8. COLLEGE AWARDS

The College presents annual awards at an Awards Ceremony during Science Week. Applications for these awards are called for annually and close on 28 February. Criteria for any of the awards can be obtained from the [website](#) or the College office.

The College Prize

Inaugurated in 1975 this prize is awarded by the College Council to a veterinarian (generally less than 10 years since graduation) who makes an outstanding practical contribution to veterinary science or practice in Australia or New Zealand, especially during the preceding five years without the support of an academic environment, The successful candidate will have worked mainly in practice as a clinician, as an official veterinarian or in the area of applied research, rather than as an academic or in basic (other than applied) research.

Previous Awardees:

Year	Name
1975	Marshall, D. P. J. (NZ)
1976	Morris, R. S. (A)
1977	Mossman, D. (NZ)
1978	Hopkins, P. (A)
1979	McNicoll, L. G. (A)
1980	No award
1981	Robins, G. M. (A)
1982	Kennedy, D. J. (A)
1983	Bell, T. K. (A)
1984	Richards, R. B. (A)
1985	Wilson, P. R. (NZ)
1986	Brightling, P. (A)
1987	Ellis, T. M. (A)
1988	Mason, K. V. (A)
1989	Chesterton, N. (NZ)
1990	Lean, I. J. (A)
1991	Miller, R. I. (A)
1992	Davis, E. (A)
1993	Tranter, W. (A)
1994	Norris, R. (A)

College Oration

The College Oration was established in 1977 to give recognition to a veterinarian in Australia or New Zealand who has made a major contribution to veterinary science. The College Oration may be held every year. It will take the form of a short resume of the recipient's work, the presentation of a medallion to the recipient and orator, followed by a suitable address by a guest speaker on a topic preferably related to the recipient's field of work.

Previous recipients:

Year	Recipient	
1978	Lionel Rose Oration	delivered by Dr. D. H. Mossman
1980	Keith Meldrum Oration	delivered by Professor W. I. B. Beveridge
1982	Marshall Irving Oration	delivered by Dr. W. Stephen Smith
1984	John Legg Oration	delivered by Dr A. K. Sutherland
1986	Ted Moodie Oration	delivered by Professor M. A. E. Rex
1988	Hugh McL. Gordon Oration	delivered by Dr J. C. Boray
1991	Lewis Fitch Oration	delivered by Dr B. S. Cooper
1992	Douglas Blood Oration	delivered by Dr Jack Arundel
1994	Arthur Webster Oration	delivered by Dr Alan Donald
1995	A. K. Sutherland Oration	delivered by Professor K. L. Hughes
1996	D. K. Blackmore Oration	delivered by Professor B. W. Manktelow
1997	R. S. F. Campbell Oration	delivered by Professor P. W. Ladds
1998	T. G. Hungerford Oration	delivered by Dr D. I. Bryden
1999	Trevor Heath Oration	delivered by Professor I. Caple
2000	Bryan Woolcock Oration	delivered by Dr D. Mahoney
2001	R. I. Taylor Oration	delivered by Dr. J. Malmo
2002	H. F. Dewes Oration	delivered by Dr. W. J. Pryor

2003	Douglas I. Bryden Oration	delivered by Dr. R. Malik
2004	Reginald R.R. Pascoe Oration	delivered by Dr. K. F. Dowsett
2007	Francis C. Baldock Oration	delivered by Dr. G. M. Robins
2010	Victor Menrath Oration	delivered by Dr. M. Gunew
2019	Boyd Jones Oration	delivered by Professor C. Mansfield
2023	Philip A. Moses Oration	delivered by Dr T. King

Kesteven Medal

The Kesteven Medal is awarded by the College in conjunction with the Australian Veterinary Association to Australian veterinarians, nominations being considered by a committee representing the two organisations. All other awards are open to New Zealand and Australian veterinarians.

This award inaugurated in 1979 is given to recognise the work of the late Dr K. V. L. Kesteven, O.B.E. and commemorates his activities with the Food and Agriculture Organisation over many years.

The Medal is awarded to Australian veterinarians in recognition of distinguished contributions to international veterinary science in the fields of technical aid or scientific assurance to developing countries.

A bronze medal is provided by the Australian Veterinary Association and the Australian and New Zealand College of Veterinary Scientists.

Nominations are considered by a selection committee comprising representatives of the Australian Veterinary Association, the Australian and New Zealand College of Veterinary Scientists and an independent nominee such as a previous awardee.

The Medal may be presented at the Annual General Meeting of the Australian Veterinary Association or the Australian and New Zealand College of Veterinary Scientists at which the recipient may be invited to speak about his work and its general field. The venue of the presentation shall be decided by the Association and the College.

The frequency of the award shall be determined by the Committee providing that the award shall not be given more frequently than once in each year.

2023	Clarke, R
2024	

Fellowship Training Scholarship

A Fellowship Training Scholarship was established in 1992 to encourage and assist members of the College to proceed to Fellowship. The value of the scholarship is adjusted annually according to the CPI for the 12 months to 31 March. It is possible that one or several scholarships may be awarded in each year.

To be eligible for the scholarship the applicant must be a member of the College who has successfully applied for fellowship examination or is seeking approval at the time of application and has submitted a training program likely to be approved by the Fellowship Training and Credentials Committee.

In selecting the awardee the selection committee considers the academic record of the applicant, his/her publications and presentations (at conferences, continuing education courses etc.), as well as the motivation, achievements and enthusiasm of the applicant. Applicants are not asked to name referees and letters of recommendation are not necessarily sought, however the committee may seek opinions from supervisors or other specialists familiar with the applicant's work.

Although award of the scholarship is primarily based on merit, due consideration is also given to the financial needs of the applicant and to how the scholarship might assist those candidates making a financial sacrifice in order to pursue fellowship. The Scholarship may not be used to supplement another scholarship or training award.

The scholarship is normally awarded to applicants who intend attempting fellowship within 12 months of the award. However depending on individual circumstances the scholarship may be used to support worthy candidates at any stage of their training.

Applications will be invited in the College Courier and close on 28 February.

Research Grant

The inaugural Australian and New Zealand College of Veterinary Scientists Research Grant was offered in 2003. Seed money for the grant was made available by Dr Geoff Robins, who waived Science Week Organising Fees for 2001 and 2002, and proposed that the money be used to support a research project undertaken as part of a Fellowship Training Program. In 2002, the College Council voted to offer an ANZCVS Research Grant of \$1,000 annually, commencing in 2003.

Most Commendable Paper in An International Journal

Purpose of the award: To highlight the scientific contribution members of the College make to the veterinary community internationally. This award will be specifically aimed at journal articles that provide insight to the pathogenesis of a disease condition, or substantially alter the treatment or prevention of disease.

The applicant must:

- a. Be a financially current member, associate member or fellow of the College
- b. Not have received the award in the previous five (5) years
- c. Must be first named or senior author for the paper under consideration

Previous Awardees

Year	Name
2013	Verkerk, K., Fleeman, L., Morton, J. and Rand, J.
2014	Whitton, C.
2015	Hall, D., Snelling, S. R., Ackland, D. C., Wu, W. and Morton, J. M.
2016	Khor, K. H., Campbell, F. E., Owen, H., Shiels, I. A. and Mills, P. C.
2017	Bamford, N. J., Potter, S. J., Baskerville, C. L., Harris, P. A. and Bailey, S. R.

2020	Wilkes, E. J. A., Heller, J., Raidal, S. L., Woodgate, R. G. and Hughes, K. J.
2021	Crawford, K. L., Finnane, A., Greer, R. M., Philips, C. J. C., Woldeyohannes, S. M., Perkins, N. R. and Ahern, B. J.
2022	No Award
2023	Salz, R. O., Elliott, C. R. B., Zuffa, T., Bennet, E. D. and Ahern, B. J.
2024	Coggins, S., Norris, J. M., Malik, R., Govendir, M., Hall, E. J., Kimble, B. and Thompson, M. F.

Meritorious Service Award

Purpose of award: to reward a member or fellow of the College, who has consistently and tirelessly contributed to the College through voluntary service at chapter or higher level.

The applicant must:

- a. Be a financially current member of the chapter that nominates them, or a Life Member/Fellow
- b. Must have served the College and/or chapter in some official capacity for at least five (5) years. These roles include serving on the chapter executive, chapter exam or credentials

liaison committee; being an active mentor, examiner or Science Week coordinator; serving on Council or the Board of Examiners.

2023	No Award
2024	Baron, H. and Thomson, M.

Membership Travel Grant

Purpose of award: to reward a newly active member of the College, who is not in training in a fellowship program, attend an international veterinary event that will be of benefit to the individual professionally, as well as be of benefit to the chapter to which they belong.

The applicant must:

- a. Be a financially current member of the chapter that they nominate
- b. Must have served their chapter in some official capacity for at least three (3) years. These roles include chapter executive, chapter exam or credentials liaison, mentor, examiner or Science Week coordinator.
- c. Not be in a fellowship (or alternative specialist College) training program
- d. Must apply for the travel grant online by 28 February of each year.

9. BEQUESTS

Bequests are traditionally a lasting way to say thank you to an establishment or organisation that does work that people respect and value. Individuals are invited to bequeath to the Australian and New Zealand College of Veterinary Scientists when preparing a will. Bequests can be as small or large as liked, and are easy to arrange.

It is recommended that the following suggested bequest wording be adopted for the purpose of making a bequest to the College. It is a generic form of wording which will need to be modified in each particular circumstance.

SUGGESTED BEQUEST WORDING

I give to the Australian and New Zealand College of Veterinary Scientists ABN 50 000 894 208 (the whole of my estate) or (a specific sum or piece of property) or (a percentage of my estate) or (the residue of my estate) free of all duties for its general purposes. A receipt from the Treasurer or other authorised person shall be a complete and sufficient discharge for the Executor.

APPENDIX I

HISTORY OF THE COLLEGE

A resolution from the Annual General Meeting of the Australian Veterinary Association held in Melbourne during May 1967 approved in principal the establishment of a Veterinary College. A committee was elected to explore the possibility and scheduling of such an undertaking. Under the chairmanship of Professor D. C. Blood of the University of Melbourne, the committee reported to the Annual General Meeting of the Australian Veterinary Association in 1968 and again in 1969 on the aims of the proposed College and the criteria for entrance to membership of the proposed College.

Support for, and participation in the proposed College was also shown by resolutions passed at the Annual General Meeting of the New Zealand Veterinary Association in 1969.

The first report of the Committee recommended that:

1. The College would exist primarily to provide specialist professional qualifications to veterinarians of superior competence.
2. The College would be a national institution and membership (with the exception of Foundation Membership) would be gained primarily by examination.
3. Entry examinations could be oriented towards one of a number of field of competence; but membership of the College must be open to all veterinarians registrable in Australia and New Zealand.

An important step towards the achievement of these recommendations occurred in 1969 when the Annual General Meeting of the Australian Veterinary Association passed a resolution directing the Council of the Association "To appoint a provisional governing body to take preliminary steps in setting up an autonomous Veterinary College for the purpose of developing a corps of veterinary specialists."

Following this directive, the Council of the Australian Veterinary Association conducted a ballot to elect an Interim Council which would be representative of the different areas of activity of the veterinary profession. Professor R. M. Butterfield was elected convenor. With the establishment of the Interim Council, the College became an autonomous body, independent of the veterinary associations of Australia and New Zealand.

In an extremely busy year of activity, the Interim Council commissioned the drafting of a Memorandum and Articles of Association, and the Australian College of Veterinary Scientists was registered under the companies Act of New South Wales.

At the same time, the Interim Council appointed working parties in each State of Australia, the Northern Territory and New Zealand, to recommend nominations for Foundation Membership of the College. To qualify for nomination, or rather for an invitation to Foundation Membership, veterinarians had to fulfil certain criteria, amongst which were being a graduate of at least eight years standing, engaged in practice or some aspect of veterinary science for the past five consecutive years, and having displayed a competent level of professional skill and proficiency, and being of good standing within the profession.

Of the 505 veterinarians who accepted the invitation to Foundation Membership of the Australian College of Veterinary Scientists, 139 were practitioners, 100 were departmental officers, 71 held university appointments, 21 held SCIRO, CSL OR OTHER Commonwealth positions, 24 were from industry and the remainder were engaged in a variety of professional activities.

The final act of the Interim Council was to call for nominations and to hold a ballot for the election of 22 councillors to direct the affairs of the College following its inauguration.

The inauguration ceremony took place at the Australian Academy of Science in Canberra on 16 May 1971 – a ceremony which marked a milestone in the history of veterinary profession in Australasia, as it marked the establishment of a College.

Speaking at the Annual General Meeting of the College a year after its inauguration, the President, Dr D. F. Stewart, put the position of the College in perspective as it relates to veterinary science in this region, as follows:

“I consider that, with the establishment of the Australian College of Veterinary Scientists, the veterinary profession in this part of the world has reached maturity. Undergraduates and post-graduate training is of a high order in our Faculties of Veterinary Science within our universities. Provision is made for the attainment of higher academic degrees. Continuing education is now provided by the post-graduate committees in veterinary science in several universities, and in the University of Sydney it is supported by the Post-graduate Foundation in Veterinary Science. Diploma courses have been introduced in several specialties in some faculties”.

“The establishment of the College now provides the opportunity for the recognition of advanced professional skills and proficiency for those members of the profession who are not in a position to devote the time to acquire higher academic qualifications, or who do not have the desire to, but who aspire to a higher standard of proficiency in their chosen field. The means by which they can obtain an additional qualification in recognition of their superiority are now established by this College”.

The College has a definite brief to encourage veterinarians in practice, in industry, in government employment, and in other fields to seek to improve themselves and to provide additional post-graduate qualifications as a goal.

THE AUSTRALIAN AND NEW ZEALAND COLLEGE OF VETERINARY SCIENTISTS COAT OF ARMS

Heraldic Blazon:

Coats of arms are described in heraldic terms and this description is called the blazon. For the Coats of Arms of the Australian and New Zealand College of Veterinary Scientists, the blazon reads:

Azure a saltire gules, in chief five mullets argent representing the constellation of the Southern Cross, in base a book argent and a pen or, dexter a Pasteur flask argent, sinister a calibrated candle argent and sable enflamed argent.

For a crest, a wreath argent and gules, Chiron salient argent holding in the dexter hand a chapel or laurel or.

Supports, dexter an Egyptian dog and sinister an aurochs both or.

Translation:

This can be translated by replacing the heraldic terms with common ones and made intelligible by explaining how the symbols were chosen.

The colour of the background of the shield is blue (azure) on which is placed a cross (saltire) which is red (gules); it is in fact the traditional veterinary colour garnet. The charges (representational objects) are, at the top (chief), five silver stars (mullets) in the form of the Southern Cross to identify the locality; at the bottom (base) there is a silver book and a gold pen signifying the recording of data; on the right (dexter) there is a silver Pasteur flask, the apparatus used by Pasteur to demonstrate that broth that had been boiled would stay clear until the side-arm was broken allowing organisms to enter, a demonstration that destroyed the “spontaneous generation” theory: on the left (sinister) of the shield there is a silver and black (sable) lighted calibrated candle, the earliest means for comparing intervals of time.

The crest, that part above the shield, consists of a silver and red torse (wreath), the rope-like symbol and Chiron, the chief centaur, is silver in the ready (salient) position holding a gold laurel wreath (chaplet) in his right hand.

The supporter on the right is an ancient Egyptian dog, that species being regarded as the earliest companion of man. That on the left is an aurochs. This was an early ancestor of modern-day cattle which roamed Europe. It was a big deep chested animal with large horns projecting forwards.

The wording “both or” in heraldry refers to the colour of the supports. The term “or” is used in heraldry to describe the colour gold or yellow.

APPENDIX III

OFFICERS OF THE COLLEGE AND MEMBERS OF THE COUNCIL

PRESIDENT

Years	Name
Interim	Prof. R.B. Butterfield (D)
1971-72	Dr D. F. Stewart (D)
1972-73	Dr B C. Eastick
1973-74	Dr L. K. Whitten (D)
1974-75	Dr J. R. Gannon
1875-76	Dr S. J. Miller
1976-77	Dr H. McL. Gordon
1977-78	Dr R.R.R. Pascoe
1978-79	Dr W. J. Pryor
1979-80	Dr G. I. Alexander
1980-81	Dr A. K. Sutherland (D)
1981-82	Dr R. W. Gee
1982-83	Dr K. J. Astill
1983-84	Prof. M.A.E. Rex (D)
1984-85	Dr B. S. Cooper
1985-86	Dr J. Malmo
1986-87	Dr R.J. Dunn
1987-88	Dr D.I. Bryden

Years	Name
1988-89	A. Prof. C.R. Bellenger
1989-90	Prof. J. R. Egerton
1990-91	Dr R.M. Zuber
1991-93	Dr B. R. Jones
1993-95	Dr D. J. Kennedy
1995-97	Dr G. M. Robins
1997-99	Dr C. H. Carlisle
1999-02	Dr G. J. Shepherd
2002-04	Dr R. T. Roe
2004-07	Dr R. A. Read
2007-09	Dr S. Burrough
2009-11	Dr R.H. Labuc
2011-14	Dr P. A. Moses
2014-16	Dr C. S. Mansfield
2016-18	Dr A.K. Burrows
2018-21	Dr Z. Lenard
2021-23	Dr A. Lane
2023-	Dr D. Tabrett

CHIEF EXAMINER

Years	Name
Interim	Prof. D.C. Blood
1971-79	Prof. D.C. Blood
1979-81	Prof. T. J. Heath
1981-83	Prof. M.A.E. Rex (D)
1983-96	Dr E.W. Moodie (D)
1986-89	A Prof. C.R. Bellenger
1989-92	Dr G. M. Robins
1992-94	Prof P.W. Ladds
1994-96	Dr F.C. Baldock (D)
1996-99	Dr R. A. Read

Years	Name
1999-02	Dr H. M. Burbidge
2002-05	Dr R. H. Labuc
2000-07	Dr N. R. Perkins
2008-10	Dr R. Stanley
2010-13	Dr A. K. Burrows
2013-15	Dr M. Owen
2015-18	Dr M. A. Muurlink
2018-21	Dr C. Guy
2021-22	Dr P. Bennett
2022-	Dr J. Carter

HONORARY TREASURER

Years	Name
-------	------

Years	Name
-------	------

1971-80	Dr K. J. Astill
1980-81	Prof. M. A. E. Rex (D)
1981-82	Dr G. I. Alexander
1982-86	Dr E. W. Moodie (D)
1986-89	Dr J. W. Ryley (D)
1989-90	Dr I. P. McCausland
1990-91	Dr D. I. Bryden
1991-95	Dr R. M. Zuber
1995-97	Dr D. J. Kennedy
1997-99	Dr G. J. Shepherd

1999-00	Dr G. B. Neumann
2000-02	Dr R. T. Roe
2002-04	Dr J. Hyland
2004-07	Dr G. B. Neumann
2007-08	Dr R. T. Roe
2008-13	Dr E. Dill-Macky
2013-16	Dr M. Paton
2016-21	Dr B. A. Smith
2021-23	Dr D. Tabrett
2023-	Dr C. Guy

HONORARY SECRETARY

Years	Name
1974-75	Dr R. E. Churchward (D)
1976-77	Dr G. I. Alexander
1977-80	Prof. M. A. E. Rex (D)
1980-88	Dr G. I. Alexander
1988-95	Dr B. A. Woolcock
1995-97	Dr R. M. Zuber
1997-00	Dr J. R. Vasey
2001-06	Dr T. J. King

Years	Name
2006-09	Dr R. Labuc
2009-11	Dr R Sutcliffe
2011-13	Dr M. Paton
2013-14	Dr N. Williamson
2015-19	Dr W. Ricketts
2019-21	Dr A. Lane
